

LEAN SIX SIGMA WHITE BELT

The Core of the Program

A White Belts' aim is to solve daily operational matters in small teams at the workplace. The focus is thus to utilise and implement basic visual management tools to analyse processes and implement solutions.

The Purpose of a Green Belt

A White Belts' purpose is to be empowered to embark on root cause analysis complemented by waste analysis as well as to use some Lean Six Sigma tools and techniques to solve problems experienced in their day-to-day tasks in a creative way.

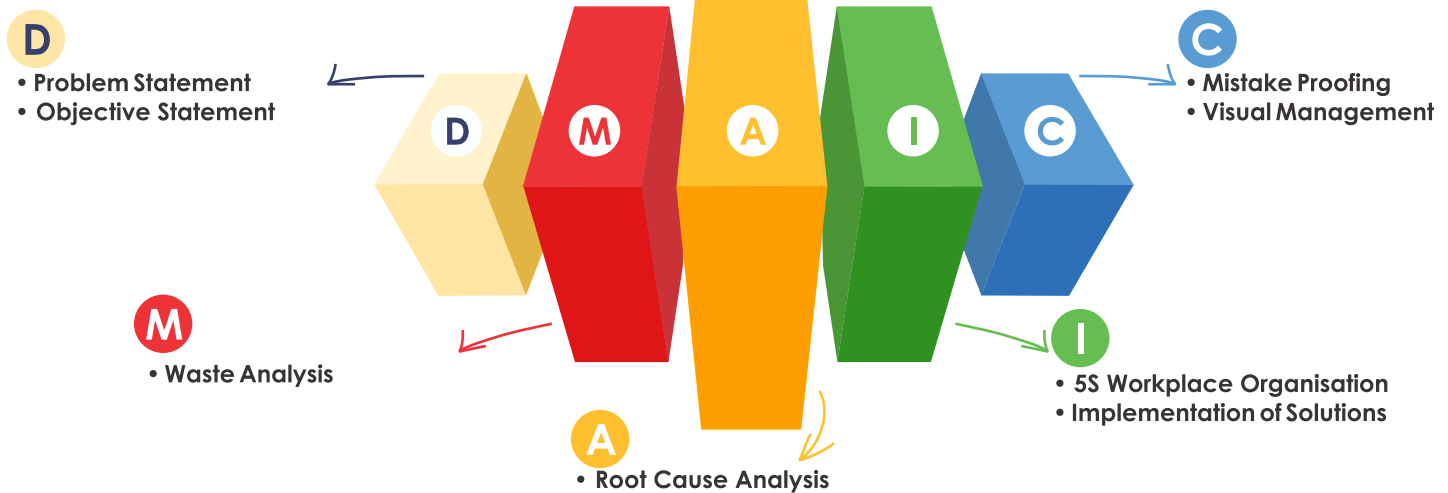

Target Market

Frontline Operational Staff.

Requirements

- 2 days of classroom training
- Complete exam with score > 70%
